

Chef Mick Rickerd | Spectrum Health

Boasting over 28 years of restaurant and large event experience, Chef Mick Rickerd is at the helm of Spectrum Health's culinary experiences. He spent nearly three decades developing a passion for farm to table cooking and utilizing fresh ingredients prepared simply and was accustomed to sourcing fresh products from local farms and purveyors for use at the restaurants he worked in. He has continued this tradition while joining Spectrum Health. His relationships with these local farmers, bakeries, and other specialty companies have helped push Spectrum health to reimagine what hospital food is in their Michigan Street Market and Grill. He pushes the boundaries to what locally can be brought to a healthcare system, thus encouraging a spirit of community, by supporting the local businesses in the neighborhoods around Spectrum Health.
